Let's float among the clouds together, ooh  
Hold me tight, I'm afraid I'll miss you  
Will you hug me?

A song that contains you  
I'll sing for you all day long  
When we first met  
Will you remember us?  
Every day for eternity  
Will you stay like this?  
Again and again, ooh

You and me in the deep ocean, baby  
Take a step on this rhythm  
Maybe you know (Oh-oh)  
Oh, take it slow (You always give good love to me)

Stay up all night with me  
Lean on me, let me know how you feel
