

## Every Day

SOPHIA

every day, every day  
I think of how much I must hurt you  
and every day, and every day  
I think that today is too late  
that today is too late  
but do you really think that I never loved you

but do you really think that I never loved you  
do you really think that I never loved you

do you really think that I never loved you  
I never loved you  
and everyday, and everyday  
I think of everything I could never say  
and every day, and every day  
I think that today is too late  
that today is too late
