

Better Off Without You

Sophie B. Hawkins

You lied to my face
You stole my happiness
You left
Without a forwarding address

You want another piece of me
But I gave it all for free

I'm better off without you
I'm really doing fine
My whole life was about you
And now I'm finding mine

We dove in the curl
Every day our flag was red
We changed the world
Until you took my best friend to bed

You got what you planned for
But honey I got so much more

I'm better off without you
I'm really doing fine
My whole life was about you
And now I'm finding mine

It's scary to lose you
I thought you were my best part, but
I'm better off without you
I hope you heal your heart

Bye bye baby
I'm hitting my stride
So long darling
I got my pride

I'm better off without you
I'm really doing fine
My whole life was about you
And now I'm finding mine

I'm better off without you
I'm really feeling good
And now the truth about you
Is hurting like it should

It's scary to lose you
I thought you were my best part, but
I'm better off without you
I hope you heal your heart

You lied to my face
