

# Breathe Me In

Sophie Barker

Breathe, breathe me in  
Let me soak through skin  
Lie next to me, through the night  
Tell me what you see, all your dreams and fantasies  
Swimming your head before I sleep

If I fall in the middle of your heart  
Whether we ride this life together  
Be awake for me  
Move over here  
Come sit by my side  
Hold me closely day and night  
Less is more, give me more of what I need  
Breathe, breathe, breathe me in

If you fall in the middle of your life  
Feel like times running out, we wont break  
We will grow together  
Know that you are loved, you are loved here and now and forever  
I wont let you go 'til the sun burns out on me

Bless this moment, bless this moment, bless this moment  
You're the only one, you're the only one, you're the only one  
You're the only one, you're the only one
