

# Basement Party

Sophie Cates

I watched a stranger kiss a girl on a train  
And I don't wanna be alone no more  
I take a pill that makes me feel like I'm saved  
And I don't feel like I'm a kid no more

And I watch the world come alive  
I hold my friends while I cry  
Weight on my feet, crushin' dry, dead leaves  
I don't wanna go home no more

Basement party, I'm so caught up in a light show  
When I'm in Chicago, run around with no coat on  
I'm so gone, I'm so happy everyone  
I come down, holy fuck, feel like everyone is right

I come down, holy fuck, feel like everyone is right
