

can't sleep in

Sophie Cates

I woke up before you
And watched the sun bend shadows on your closed eyes
I can never sleep in
Too many things on my mind
Last night I felt your lips again
Though I know I just got over it
Now I'm lying face down in your bed
Wondering, wondering
Did you mean anything you said?
Treat me like a regret

I can never say no to you
But you could if you want me to
I can never say no to you
Said you could if you want me to

(I woke up before you)
Aliens exist
Aliens probably, definitely exist

I can never say no to you
But you could if you want me to
I can never say no to you
Said you could if you want me to
(I can never say no to you)
