

## i don't reply

Sophie Cates

I was with the boys I didn't know you were invited  
I feel all these things but I'm just always tryna hide it  
I put my hand on your shoulder, I can tell you liked that  
I can tell you like that  
I can tell  
I get overwhelmed every time  
You can hit me up anytime  
You come a little close  
I pull away  
I pull away  
I pull away

I don't reply for days I know you like that  
I play it off like it's cool but I know that you don't like tha

You said baby tell me lies  
I said baby tell me why  
And I hate it when you don't reply  
Cause I'd rather be with you tonight

I know you're obsessed w me  
You're too nervous when your next to me  
I keep giving you good sex for free  
No love letters addressed to me

You're fine  
Cause you love it when I pay no mind  
And I really got you going last night  
Didn't I?  
Hit you with the no reply  
Get you going like every time
