

i dont smoke

Sophie Cates

I don't smoke, except for when I'm missing you
To remember your mouth, how it tasted true
And I don't smoke
Except for after I've held you, baby
Being with you made the flame burn good

So if you need to be mean, be mean to me
I can take it and put it inside of me
If your hands need to break, more than trinkets in your room
You can lean on my arm as you break my heart

I'm what's left of when we kissed under the moon
Baby, now my whole life is just waiting for
When you will come around and say that
I was meant for you, baby
Being with you makes the flame burn good

So if you need to be mean, be mean to me
I can take it and put it inside of me
If your hands need to break, more than trinkets in your room
You can lean on my arm as you break my heart

Just don't leave me alone
Wondering where you are
I am stronger than you give me credit for

If your hands need to break, more than trinkets in your room
You can lean on my arm as you break my heart
