

# i'll go goth

Sophie Cates

I'll go goth  
If that's really what you want  
Mindless baby, feelings off  
Nothing in my head  
It's alright  
I can wait for you all night  
Heartbroke baby, can be mine  
Forget the words you said

Here I am again  
The safer place you said  
You thought that you'd need it  
So I let you rest your head  
Asking you to lie  
I've waited all this time  
But I guess you were right  
You don't wanna be mine

Drink her wine  
I'll just smoke my cigarettes inside  
Hoping that you'll make it out alive  
You know how much I care  
And I'll be fine  
I can wait for you all night  
Heartbroke baby, can be mine  
But you know I'm always there

Here I am again  
The safer place you said  
You thought that you'd need it  
So I let you rest your head  
Asking you to lie  
I've waited all this time  
But I guess you were right  
You don't wanna be mine

Ooh, ooh

Here I am again  
The safer place you said  
You thought that you'd need it  
So I let you rest your head  
Asking you to lie  
I've waited all this time  
But I guess you were right  
You don't wanna be mine
