

Freedom Of The Night

Sophie Ellis-Bextor

Give in to what she wants
Give in to what she wants
Give in to what she wants

Wake up
Put on your confidence like make up
Step through the mirror as the sun drops
Kiss the lights goodbye, yeah

I've heard dreams come true
Come to the other side

I can feel energy
I believe it's healing me
All I need is sweet release
In the freedom of the night
Freedom of the night-
-I can feel energy
I believe it's healing me
All I need is sweet release in the freedom of the night
Freedom of the night
Give in to what she wants
Give in to what she wants
Give in to what she wants

Don't check the clock
There's no time here
We're just spun in a web made of moonlight
Give me enough that my heart stop- starts, beats fast
I'm scared, but it feels right

I've heard dreams come true
Come to the other side

I can feel energy
I believe it's healing me
All I need is sweet release
In the freedom of the night
Freedom of the night-
-I can feel energy
I believe it's healing me
All I need is sweet release in the freedom of the night
Freedom of the night

Give in to what she wants (Give in to what she wants)
Give in to what she wants
Give in to what she wants
Give in to what she wants (Give in to what she wants)
All I need is sweet release (Give in to what she wants, Give in to what she wants)
In the freedom of the night (Give in to what she wants)
Freedom of the night (Give in to what she wants)

Ooh (Give in to what she wants, Give in to what she wants)
When the moon is high, I feel this way
(Give in to what she wants, Give in to what she wants)
Getting what I need to rise again

(Give in to what she wants, Give in to what she wants)
When the moon is high, I rise again
(Give in to what she wants)

I can feel energy
I believe it's healing me
All I need is sweet release
In the freedom of the night
Freedom of the night
