

He's A Dreamer

Sophie Ellis-Bextor

Romantic fantasizer
Star gazing, never with an answer
Sweet voyager, lifting up the atmosphere
Idealist memoriser
My roaming imagination wonder
Want to get into the place so near

Underneath a dark and heavy sky
Let the storm clouds come and lift you high
Hidden from the nightmares, you and I
We're dreaming

He's a dreamer
He's a dreamer
Everywhere he goes
He's a drifter
And I could never keep my eyes so closed

He's a dreamer
He's a dreamer
Always takes it slow
He's a wonder
And I've tried to see the world he knows
Oh, I'll never see the world he knows

My favourite synthesiser
Escape artist, moving like dancer
Deep ocean
Swimming through the atmosphere

Underneath the emerald rolling sea
Let the currents bring you back to me
We can waltz for all eternity
We're dreaming

He's a dreamer
He's a dreamer
Everywhere he goes
He's a drifter
And I could never keep my eyes so closed

He's a dreamer
He's a dreamer
Always takes it slow
He's a wonder
And I've tried to see the world he knows
Oh, I'll never see the world he knows

He's a dreamer
He's a dreamer
Everywhere he goes
He's a drifter
And I could never keep my eyes so closed

He's a dreamer
He's a dreamer
Always takes it slow

He's a wonder
And I've tried to see the world he knows
Oh, I'll never see the world he knows

He knows
He knows
He knows
He knows
