

# Love Is Here

Sophie Ellis-Bextor

I have been waiting for you  
I have been storing all my devotion  
It flows like an ocean now  
It seems I've never felt so complete  
It's like I've woken up from a deep sleep  
But dreaming of you somehow  
I've become fond of having you near  
The way I'm fond of breathing in air  
How could I be without you?

Yes, my love, darling I was made for you  
Never will this alter, anytime you falter  
I'll be there, I'll be there  
Yes, my love, I open up my heart for you  
Everyday that's breaking  
You will hear me saying  
Love is here, love is here  
Never fear, 'cause baby, love is here

And so a new beginning  
My heart, my head is spinning  
I'm dizzy  
Yeah, you make me giddy now  
You make my life have purpose  
And so I'm gonna make my goal just to love you  
As much as I can do, yeah  
I hope you're proud of being my man  
The way I'm proud of holding your hand in my hand

Yes, my love, darling I was made for you  
Never will this alter, anytime you falter  
I'll be there, I'll be there  
Yes, my love, I open up my heart for you  
Everyday that's breaking  
You will hear me saying  
Love is here, love is here  
Never fear, 'cause baby, love is here

I've become fond of having your near  
The way I'm fond of breathing in air  
How could I be without you?

Yes, my love, darling I was made for you  
Never will this alter, anytime you falter  
I'll be there, I'll be there  
Yes, my love, I open up my heart for you  
Everyday that's breaking  
You will hear me saying  
Love is here, love is here  
Never fear, 'cause baby, love is here

Yes, my love, darling I was made for you  
Never will this alter, anytime you falter  
I'll be there, I'll be there  
Yes, my love, I open up my heart for you  
Everyday that's breaking  
You will hear me saying

Love is here, love is here  
Never fear, 'cause baby, love is here
