

# Love Is You

Sophie Ellis-Bextor

Love is you  
You're its smile  
Love is you  
You're its child

You've taught me what it is to be somebody  
And you gave life to a useless wandering body

Love, love is you  
You're its smile  
Yeah, love is you  
You're its child

'Cause you touched me and I saw God's own heaven  
And now I know, I'll stay with you forever

Love is you  
Love is you

Love, don't make me feel afraid  
I just wanna stay  
'Cause you and me can make it together  
Always cast away  
Yeah, baby, you touched me and I saw endless heaven  
And now I know, I'll stay with you, with you forever

Love (Love is) is you (Love is you)  
You're its smile  
Yeah, love (Love is) is you (Love is you)  
You're its child  
Yeah, baby, love (Love is) is you (Love is you)  
You're its smile  
Yeah, love (Love is) is you (Love is you)  
You're its child

Love is you  
Love is you
