

Until The Wheels Fall Off

Sophie Ellis-Bextor

Everyone's waiting till the mood is right
With a perfect scene and a golden light

But you and I, darling
Well, we both well know
Gotta light every candle
Gotta seize what we're thrown

Let's taste all the best we find under the sun till it's done
Till it's done

Through all the crazy times
All of the lows and highs
Love's all there is is all we know of love
And if we hit a mountain slide
Only hold each other tight
Yeah, we'll laugh and love until the wheels fall off
Yeah, we'll laugh and love until the wheels fall off

The days they all fly by
At a lightning speed
But a life so well lived
That's the good life indeed

If you go ahead
Wait for me till we meet again
Till the end
Till the end

Through all the crazy times
All of the lows and highs
Love's all there is is all we know of love
And if we hit a mountain slide
We'll only hold each other tight
Yeah, we'll laugh and love until the wheels fall off
Yeah, we'll laugh and love until the wheels fall off
Till the love that we make is all that we're made of

Hold on for another bumpy ride
I can see the adventure in your eyes

Through all the crazy times
All of the lows and highs
Love's all there is is all we know of love
And if we hit a mountain slide
We'll only hold each other tight
Yeah, we'll laugh and love until the wheels fall off

Yeah, we'll laugh and love till the wheels fall off
Till the love we make is all that we're made of
Laugh and love until the wheels fall off
