

Alpha Venom

Sophie Hunger

Alpha, alpha venom
I bite into a lemon
I bleed inside my denims
But this is not the pain
Alpha, alpha venom
A genius infection
So easy to get sick
So hard to overcome
You are mad again
But you are gonna lose it
Don't forget who makes the music
Don't forget who makes the music
You are mad again
But you are gonna lose it
Don't forget who makes the music
Don't forget who makes the music
You're walkin' on my shoulders
You're speaking in my name
We are maybe equal
But we are not the same
Alpha, alpha venom
Everyday is [?]
Alpha, alpha smile
Everywhere and all the time
You are mad again
But you are gonna lose it
Don't forget who makes the music

Don't forget who makes the music
You are mad again
But you are gonna lose it
Don't forget who makes the music
Don't forget who makes the music
You are mad again
But you are gonna lose it
Don't forget who makes the music
Don't forget who makes the music
You are mad again
But you are gonna lose it
Don't forget who makes the music
Don't forget who makes the music
I'm the one who makes the music
I'm the one who makes the music
I'm the one who makes the music
I'm the one who makes the music
I'm the one who makes the music
I'm the one who makes the music
I'm the one who makes the music
I'm the one who makes the music
