

## Bad Medication

Sophie Hunger

Bad Medication  
It's keeping me up and taking shot  
Oh, it's high inflammation  
Hallucinating  
Fatamorgana  
I'm not gonna look, I'm not gonna look  
I'm simulating  
My face is a painting  
Seeker of attention  
It's pulling me up, it's holding me down  
On my knees and chest  
I'm a pinball game again  
I'm physically changed  
Not here to touch, you cannot be patient  
I am a patient  
It's a bad medication  
Long after the sickness

After the withdrawals  
Don't forget to love me after all  
Riptide flow, riptide flow  
Strips me naked  
Fix it though, fix it though  
You will break it  
Give me concussions  
It's pure and it's precious  
It's dry on the edges  
The edges of rain  
Pointless confessions  
There will be sessions  
The answers are never  
The things that we say  
Long after the sickness  
After the withdrawals  
Don't forget to love me after all
