

Don't You (Forget About My Love)

Sophie

In the garden of my heart
I see my lonely moon
The flower's love is blooming in
This night of passion

Deep inside into my mind
A dream of you so kind
A flavour full of special love and soul

Honey babe
Love is forever! sweet sensation
You make me crazy with your passion
Don't forget my love (echo)
Everlasting heart and soul

Don't you forget about my love
Please don't forget my passion baby
Don't you forget about my love
Take all my life and soul

Don't you forget about my love
You make me loose, you make me crazy
Don't you forget about my love
Feel the passion now

Take my love my secret dreams
The passion that I think
Is burning like a fire like a soft desire

Please don't leave me alone this night
Don't break my lovely sighs
Ever and ever
Sweet sensation you...
