

Get Higher

Sophie

Let your body get higher
Let your body get higher
Let your body get, let your body get, let your body get higher (yeah)
Let your body get higher
Let your body get higher
Let your body get, let your body get, let your body get higher (here we go)

When I'm feeling lonely
And deep down in despair
Call a friend of mine up
And drive somewhere
Somewhere I can feel free
With no constraints
Somewhere I can be me
With all my friends (alright)

Yeah-ee-ah (let your body get higher) (yeah)
Yeah-ee-ah (let your body get higher)
Yeah-ee-ah (let your body get higher) (yeah)
Yeah-ee-ah (let your body get, let your body get, let your body get higher)

Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (get higher)
Let your body get, let your body get higher (oh yeah)
Let your body get, let your body get higher (come on)
Let your body get, let your body get higher (let's go)
Let your body get, let your body get higher (go)
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (yeah)
Let your body get, let your body get higher
Let your body get, let your body get higher
Let your body get, let your body get higher (oh yeah)
Let your body get, let your body get higher
Let your body get, let your body get higher (that's right)
Let your body get, let your body get higher
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher
Let your body get, let your body get higher (oh yeah)
Let your body get, let your body get higher
Let your body get, let your body get higher (let me see you get higher)

Yeah-ee-ah
Yeah-ee-ah (get ready)
Yeah-ee-ah
Yeah-ee-ah (one more time)

When I'm feeling lonely
And deep down in despair
Call a friend of mine up
And drive somewhere
Somewhere I can feel free
With no constraints

Somewhere I can be me
With all my friends (come on)
When I'm feeling lonely
And deep down in despair
Call a friend of mine up
And drive somewhere (oh yeah)
Somewhere I can feel free
With no constraints
Somewhere I can be me
With all my friends (here we go)

Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher (come on, higher)
Let your body get, let your body get higher (get higher)
Let your body get, let your body get higher (get higher)
Let your body get, let your body get higher (go higher)
Let your body get, let your body get higher (more higher)
Let your body get, let your body get higher (higher)
Let your body get, let your body get higher
Let your body get, let your body get higher (oh yeah)
Let your body get, let your body get higher
Let your body get, let your body get higher
