

# My Forever

Sophie

Sometimes I feel like  
Alone, like  
No one cares for me anymore  
High up, wonder why I'm so lonely  
Can't stop, when I know that it's only  
Everybody wants to be somebody  
Everybody's got to own their body

Cause tonight, city lights  
In the dream, I can almost feel you again  
Next to me, beautiful  
How I long to be forever

I want to go back to forever  
You'll always be my forever  
I want to go back to forever  
You'll always be my forever

Sometimes I feel like  
Alone, night  
Living in a memory, come by  
Hands up, rest my body, set my soul free  
Won't stop, keep it going 'till the sun sleeps  
Everybody's got to hold somebody  
Everybody's got to own their story

Cause tonight, city lights  
In the dream, I can almost feel you again  
Next to me, beautiful  
How I long to be forever

I want to go back to forever  
You'll always be my forever  
I want to go back to forever  
You'll always be my forever  
I want to go back to forever  
You'll always be my forever  
I want to go back to forever  
You'll always be my forever

My forever, ah, oh  
My forever  
My forever, ah, oh
