

# My World

Sophie

You are my world  
But you're so far away  
I feel so alone  
Like any other day  
I need a change  
There's something special in you

You are my love  
I wanna give you more  
I feel so cool  
Waitin' behind the door  
I need a chance  
There's something else I can do

My love is all that I can give you  
You'll spend the night with me I want you  
This is the only thing I want to say

You're my world  
I'm loving your ways I'm living in paradise  
You're my world and all is OK  
When I look into your eyes  
Baby would you give me more  
I'm just knockin' at your door

I feel so scared  
You were my only friend  
I'm like a child  
Lost in a desert land  
I need you here  
I wanna show you my life  
You're my world  
I'm loving your ways I'm living in paradise  
You're my world and all is OK  
When I look into your eyes
