Sorn

Cool
No matter what we do
I'm telling you that I like you a lot
Yeah, I like you a lot

I'm levitating in heaven
Right when you say my name
Wake in the morning
I'm dressin' up just for you

Now I'm obsessin'
Keep me guessin'
You know I'm gonna stay
Oh oh oh oh

Night and day (Every night and day)
When you say (Love it when you say)
Girl, you're right on my mind like
Boy, you make me loveblind, I
I'm waitin' for ya
Whenever you're ready, yeah, it's

Cool
I like you like I do
Won't keep you in the blue
Like dot dot dot
Talk to me, baby
It's cool
No matter what we do
I'm telling you that I like you a lot
Yeah, I like you a lot
Uh

Butterflies flying 'round in my stomach
I can admit you're a crush and I'm blushing
I sent a text and I'm hoping that you read it
I hope you really feel it
And that you want me back back

Oh, you got me on a cloud
Never wanna come back down
Cause if you're down
I'mma make you mine now, uh uh

Night and day (Every night and day)
When you say (Love it when you say)
Girl, you're right on my mind like
Boy you make me loveblind, I
I'm waitin' for ya
Whenever you're ready, yeah, it's

Cool
I like you like I do
Won't keep you in the blue
Like dot dot dot
Talk to me, baby
It's cool

No matter what we do
I'm telling you that I like you a lot
Yeah, I like you a lot
Uh

You know I really like you, baby
Like you like you
Yeah I like you like you oh
You're someone that I'll never let go of
I'll never get over you

Cool
I like you like I do
Won't keep you in the blue
Like dot dot dot
Talk to me, baby
It's cool
No matter what we do
I'm telling you that I like you a lot
Yeah, I like you a lot
Uh

And you're really fresh like
I'm telling you that I like you a lot
