

RUN

Sorn

Leave it up to me to find a way out of another party
Tired of all the hate, they hating on me 'cause I got somebody

Try and mess with us
We ain't where we're from baby
Won't be missing much
Pack our bags and run

Stuck here, waiting for what
What's here, but a whole lotta nothing
So why don't we, why don't we run
Do all the things that we want, yeah
No fear, taking control
I'm good with wherever we're going
So why don't we, why don't we run
Do what we've wanted for once, yeah

I don't like the way they looking at me
Acting like they don't know why I, I just wanna leave with you
Always better when we do

Try and mess with us
We ain't where we're from, baby
Won't be missing much
Pack our bags and run

Stuck here, waiting for what
What's here, but a whole lotta nothing
So why don't we, why don't we run
Do all the things that we want, yeah
No fear, taking control
I'm good with wherever we're going
So why don't we, why don't we run
Do what we've wanted for once, yeah

So why don't we, why don't we run
Do what we've wanted for once, yeah
