

Save Me

Sorn

Watching out what everyone is doing
But nobody would know, yeah nobody would know
Calling your best friend who knows nothing
But the secrets unkept, you'd regret what you said

You can say that I'm just dramatic and walk away
Turning a blind eye I can't escape
From all the lies we like to hide
I put on a smile while crying inside

Is it just this city
Makes us hurt so pretty
Till we're all just washed out
Is this how we go down
Everyday I'm screaming
Am I even breathing?
Can anybody save me now?
Oh just save me

Anybody out?
Anybody out?
Anybody out?
Can anybody save me now
Oh just save me

Tell me I'm not the only one
I cannot go on like this alone
I want to see the beautiful before it's gone

You can say that I'm just dramatic and walk away
Turning a blind eye I can't escape
From all the lies we like to hide
I put on a smile while crying inside

Is it just this city
Makes us hurt so pretty
Till we're all just washed out
Is this how we go down
Everyday I'm screaming
Am I even breathing?
Can anybody save me now?
Oh just save me

I'm not invincible
I have a broken soul
I'd rather feel the pain
Than lie that it's okay

I'm not invincible
I have a broken soul
All I do is pray
Hoping things will change

Is it just this city
Makes us hurt so pretty
Till we're all just washed out
Is this how we go down (This is how we go down)

Everyday I'm screaming
Am I even breathing?
Can anybody save me now? (Can anybody save me now?)
Oh just save me

Anybody out? (Anybody save me now)
Anybody out? (Anybody, anybody)
Anybody out?
Can anybody save me now
Oh just save me

Anybody save me
