

Everybody knows my name  
Maybe only rings a bell  
Everybody asks the same  
Am I sailing to the moon?

A ceiling of the skyline  
When I'm running for the hills  
As my shipwreck hits the road now  
Am I sailing to the moon?

Now I'm sitting in my backyard  
And I'm staring at the moon  
Is there anybody waiting  
For my ship's arrival sign?

Oh, I am too late  
Maybe better for me to stay on earth  
I've got story to tell  
Is there anybody who wants to hear?  
Oh, I am too late  
Is there anybody since yesterday?  
I've got story to tell  
Maybe better for me to stay on earth

My ship is turning back to earth  
Is there any help?  
Sirens sing my song there  
And they guide me in a way  
Rivers which have flowed there  
Now have empty river beds

Still I'm sitting in my backyard  
And I'm staring at the moon  
Is there anybody waiting  
For my ship's arrival sign?

Oh, I am too late  
Maybe better for me to stay on earth  
I've got story to tell  
Is there anybody who wants to hear?  
Oh, I am too late  
Is there anybody since yesterday?  
I've got story to tell  
Maybe better for me to stay on earth

You say I am a dreamer  
Oh, I am too late  
Maybe better for me to stay on earth  
I've got story to tell  
Is there anybody who wants to hear?

You say I am a dreamer  
I am only a moon sailor  
You say I am a dreamer  
I am only a moon sailor
