

## 2 Down 2 Dance

Sorry

Too down to dance  
Too depressed for romance  
Cliches cloud your dreams  
Cliches cloud your crain'

To space too quiet  
Decent night stay in bed  
And cry, and cry  
And cope, uptight

Constantly  
You take everything you want from me  
You could never do anything wrong to me  
But you have never been too good to me, too good for me  
Too

Too down to space  
Too out of place

Too down to dance  
Too depressed for romance  
Glassy-eyed and tired  
All these things just make me silent

To space too quiet  
Decent night stay in bed  
And cry, and cry  
And cope, uptight

Constantly  
You take everything you want from me  
You could never do anything wrong to me  
But you have never been too good to me, too good for me  
Too

Too down to space  
Too out of place  
Too down to space  
Too down, too down
