

## Favourite

Sorry

Did I stay too long?  
Was it something I did?  
Hope that something has changed  
At least for a bit  
Did I do something right?  
Did I do something wrong?  
Should I play that one again?  
Am I your favourite song?  
Am I your favourite one?  
Am I your favourite one?

Do you seem entertained?  
Am I coming off strange?  
I just want to be claimed and then taken away  
Taken with you, are you taken by me?  
Do you like what you see as I flash my teeth?

I couldn't explain or put into words  
All of the pain that we've maintained  
And put in a box  
And you can have half, and you can have half  
(Am I yours, am I yours again?)  
(Yours again)

Am I yours for the evening?  
Am I yours for the night?  
Am I yours for the weekend?  
Am I yours on the side?  
Am I yours 'cause it's right?  
Am I yours 'cause it's wrong?  
Should I play that one again?  
Am I your favourite song?  
Am I your favourite one?  
Am I your favourite one?

I couldn't explain or put into words  
All of the pain that we've maintained  
And put in a box  
And you can have half, and you can have half
