

More

Sorry

I want more and more and more and more
I want love
Don't give me too much, too much, too much
Just give me enough
I want more, more, more, more
I want love
Don't give me too much, too much, too much
Just give me enough

All the blood goes to my stomach
I might stumble
I might vomit
Polly in my pocket
Put me in the corner
Give me something to look at
Give me something to look at

I want drugs and drugs and drugs and drugs
I want love
Don't give me too much, too much, too much
Just give me enough
I want it all, it all, it all, it all
I want it all
I want it all, it all, it all, it all
I want it all

All the blood goes to my stomach
I might stumble
I might vomit
Polly in my pocket
Put me in the corner
Give me something to look at
Give me something to look at

All the blood goes to my stomach
I might stumble
I might vomit
Polly in my pocket
Put me in the corner
Give me something to look at
Give me something to look at
