

Quit While You're Ahead

Sorry

Quit while you're ahead
How can I when I got winning combinations in my head?
I'm not scared to bleed all over again
I'm in it for the long run
I'm in it for the long run

Tell me someone who knows you better now
Tell me someone who knows what's good for you
Tell me someone who knows you better now
Tell me someone who knows what's good for you

Quit while you're ahead
How can I when I got winning combinations in my head?
Quit while you're ahead
What's the odds when I got winning combinations in my head?
In my-, in my head

Everybody's on your case
Sleeping in to stay up late
All of your body can't relax
When you're acting up like that
(In my-, in my head, in my-)
When you're acting up like that
(In my-, in my head, in my-, in my head)
(In my-, in my head, in my-, in my head)
Quit while you're ahead

Tell me someone who knows you better now
Tell me someone who knows what's good for you (What's good for you)
Tell me someone who knows you better now
Tell me someone who knows what's good for you (What's good for you)
