

Rock 'n' Roll Star

Sorry

I stayed up all night with a rock 'n' roll star
He said
"You've got to dress for the part you want
Not who you are"
I stayed up all night with a washed-up rock 'n' roll star
He said
"Let me tell you the key to any girl's heart"

Blow them a kiss
Throw them a rose
Whisper anything that they want to know
About love

He said
"You're pure silver
952
Honey, I'd do anything for you
My pure love"

He said
"You're pure silver
Innocent too
Honey, I'd do anything you'd ask me to
My pure love"

We fucked all night
Stayed up late
Felt my assets fall away
Fucked all night
Stayed up late
Felt my assets fall away

'Cause I
Then he
Yeah we

Blew me a kiss
Threw me a bone
Whispered everything that I wanted to know
About love

He says
"We're pure silver
952
Honey, I'd do anything for you
My pure love"

He said
"You're pure silver
925
I'd do anything just to feel alive
With you"

I gave my old heart up to a rock 'n' roll star
