

## Snakes

Sorry

No one can take away the time  
I spent with you  
Or, no one can take away a time  
That is so coloured blue  
And every time I made you cry  
I was crying too

Oh, with you

I was nervous as hell  
In a bottomless pit  
Snakes didn't even scare me quite like you did  
Know you that well  
You were sprawled in my mind  
You were one of a kind  
And I was nervous as hell

Know you that well  
Quite like you did  
Like you did (Quite like you did)

And I never thought about you in your underwear  
'Cause I didn't really... what was under there  
Still, when I get a little drunk  
Wanna tell you that I think about you very much  
(Think about you, fuck)  
And I never thought about you in your underwear  
'Cause I didn't really care what was under there  
You're sexy enough  
And still, when I get a little drunk  
I think about the only kiss we ever sunk, about you, you  
I think about you  
And all your loose screws

I'm not like all those so-called fair-weather friends  
You can believe in me  
You can believe in me

Know you that well  
Quite like you did  
Snakes didn't even scare me (Know you that well)  
Quite like you did (Quite like, you like)  
I was nervous as hell  
In a bottomless pit  
Snakes didn't even scare me quite like you did
