

Tell Me

Sorry

There, there she goes
The life I knew so well
The life I put my heart into
There, there it goes
There, there it goes
The life I knew so well
The life that split my heart in two
Tell me how the sun sets for you
Tell me how the world works for you

Tell me which way the wind blows now
I've been standing still all alone
Tell me where the sun will go down
I've been standing here on my own

But I didn't know I was like this
But I didn't know I was like this
I kissed the thorn in which you held on
But I didn't know I was like this
I kissed the thorn in which you held on
But I didn't know I was like this
I kissed the thorn in which you held on

Tell me who you're talking to
There's roulette playin' on the news
I got ten bucks on I know who
Tell me who you're talking to
Then tell me where the fuck I've been
I've been stayin' late on the streets
I've been going out here, go there
I've been, tell me where we go from here

Tell me which way the wind blows now
I've been standing still all alone
Tell me where the sun will go down
I've been standing here on my own

But I didn't know I was like this
But I didn't know I was like this
But I didn't know I was like this
I kissed the thorn in which you held on
But I didn't know I was like this
I kissed the thorn in which you held on
