

Twinkle

Sorry

You have to twinkle all the time
They chase you 'round, but they get tired
('round but they get tired)
You're a genius with people but I know that you're ingenuine
But hey ho, I'll let you in

You are so dramatic
And I'd love to fall away with you
So blue

It kills to be so satisfied
It kills that you stay in my mind
It kills to be so satisfied
It kills that you stay in my mind

You have to sparkle in the sun
(You seem to shine too bright)
Out to outshine anyone
(You seem to shine too bright) ('round but they get tired)
You have to sparkle in the sun
They've had enough but you're not done

You are so dramatic
And I'd love to flicker off with you
So blue

It kills to be so satisfied
It kills that you stay in my mind
You shoot, you miss, at least you try
It kills that you stay in my mind
