

## Another World, Another Day

Soul Asylum

Folks tell jokes in clouds of smoke  
Making sure life won't decay  
Fancy flags fly in your face  
Fall polluting in my space

Pounds of sounds from shotgun rounds  
Music of the hit parade  
No, your father's, father's, father's  
He's got nothing left to say

On the day you walked away

Another world, another day
