

Freezer Burn

Soul Asylum

Please return my bleeding heart
For it suffers freezer burn
Please take it out to thaw
I still got so much to learn

I need a rope, need a joke, need a rope
Ain't gonna tie me down
Loosen up, loosen up, I'm losin' hope
I- I think I'm losing ground

You really made a believer outta me
All the signs say if you can't stand it you should set it free
I never thought you'd turn out who you turned out to be
You really made a believer out of me

If you wanna take my hand
Or you've got a better plan
I've come to lead you all astray
I've still got so much to say

So, load em up, loadin' up your weapons
Sharpen up your pen
Put it on, put your thinking cap on
I think were goin' in

You really made a believer outta me
All the signs say if you can't stand it you should set it free
I never thought you'd turn out who you turned out to be
You really made a believer out of me

Cold ice water falls from the buildings above
Wheels turn and grind the gears of love
If everything goes right it ends up in its place
You really made a believer outta me
I never thought you'd turn out who you turned out to be
You really made a believer
You really made a believer
