

Here We Go

Soul Asylum

Here we go
Where we're going, I don't know
Like an unholy ghost
Flyin' much too low

I'll follow you down to hell my friend
No matter where you go
I've followed every word that you said
No matter where you go

I wish I was somewhere
I wish I was anywhere
If I could be anywhere
I'd wish I were with you

Well here we go
A shovel plowin' through the snow
Takin' it blow by blow
Is this some kind of joke?

I'll fall for you when you fall through the cracks
No matter where you go
I'll track you down and follow your tracks
No matter where you go

I wish I was somewhere
I wish I was anywhere
If I could be anywhere
I wish I were with you

I wish I were with you

Here we go
Carrying on with the show
And what I miss the most
We're heading for the coast

You know I wish I was somewhere
I wish I was anywhere
Now that you're gone
I wish I were with you
