

Hey Bird

Soul Asylum

Hey now, hey now bird

A nice little way

A sky so blue

Hey now, hey now bird

Do you have my name

If I could I'd see, all the things you see

Well I try, try, try, try, I want to try to see

I want to try, try, try, try, I want to try to see

Well I feel a little groovy

And so it fills the air

You laugh and cry and sit and watch, you never care

You let me live

How do you get so high

You run and jump and flap your wings

I fly, fly, fly, fly, fly, I want to fly away

I want to fly, fly, fly, fly, I want to fly away

Hey bird

Headin' down the runway

Will you sing for a hot song

Will you never leave
