

# Silly Things

Soul Asylum

I've done a lot of silly things  
I've found out just what trouble brings  
You used to wear my silly ring  
While I listened to my ears ring  
I've done a lot of silly things

I used to think that I was cool  
Break each and every single rule  
Now all the rules are just the same  
It's just a silly game  
I used to do a lot of things

And when I fail, I will fail without you  
And my mistakes I'll always answer to  
And if I cared, anymore  
To see it like the truth  
I've done a lot of silly things  
And I know just what trouble brings  
I've done a lot of silly things

I used to like the way you walk  
You used to like the way I talk  
I used to do a lot of things  
I used to think that I could sing  
I've done a lot of silly things

You used like the way I moved  
You used to think that I was smooth  
And if I ever had a chance  
I would ask you out again  
I've done a lot of stupid things

And when I fail, I will fail without you  
I've been let down, oh so many times  
No one to blame, but myself  
To keep from getting down  
I've done a lot of stupid things  
And I know just what trouble brings  
I've done a lot of silly things

I've done a lot of silly things  
Now I know just what trouble brings  
You used to wear my silly ring  
I've done a lot of stupid things  
I've done a lot of silly things

But when I play, I will play without you  
It's every man and woman for themselves  
I feel I've learned the hard way  
To put you before myself

I've done a lot of silly things  
I've done a lot of stupid shit  
And I'm still tryin' to deal with it
