

## Time Will Tell

Soul Asylum

Sometimes in the morning  
Like some kinda Cinderella story  
Some kinda foreign movie  
Where they just say  
If you really wanna hurt me  
You're gonna have to hold on  
You know you really shoulda told me  
It ain't like you been told on

Cuz only time will tell  
Tell you what you wanna hear  
Time will tell  
Whispering right in your ear

[?] in a bottle  
You believe anything you wanna  
Really wanna believe  
Whatever they told ya  
You would just believe me  
How many times I got to tell ya

Only time will tell  
Tell you what you wanna hear  
Time will tell  
Whispering right in your ear

Take comfort in a good thing, hey  
Take comfort in me  
If you could have anything that you wanna  
Could it be the best times I spent with you

If you really wanna push me  
You're gonna have to hold on  
If you really wanna see me  
Like I wanna show ya

Only time will tell  
Tell you what you wanna hear  
Time will tell  
Whispering right in your ear  
Time will tell  
Tell ya what ya wanna hear  
Time will tell you, tell you what you wanna hear  
Only time will tell
