

Existence In Despair

Soul Embraced

A galaxy of nothing
Space taken by a name, a life unseen
Forgiveness unimportance
Until true love obtained
Until true love obtained
This is what exists without you
There's no hate, There's no love
There's only nothing, Without you I cannot feel
I heard only silence, I'm numb with emptiness
This is my existence, A face without a name, A life unseen
Forgiveness obtained, There's only nothing without you
You're all there is in my eyes, Without you I'm blinded
I'm numb with emptiness, This is my existence
