

## Like A Corpse

### Soul Embraced

I shudder in my skin  
Reality turning to madness, TO MADNESS  
Unthinkable horror you can't unsay  
Please take it all away

God help us  
We're lost  
God help us  
We're lost

It eats away at my soul  
A little at a time  
All the hope in the world decomposing  
Like a corpse  
It eats away at my soul  
A little at a time  
All the hope in the world decomposing  
Like a corpse

Burning children  
Televised decapitations  
The more we see  
The more we're unmoved  
Sickening visions enraptured in disgust  
Please take it all away

God help us  
We're lost  
God help us  
We're lost

The more we can't feel  
The more we lose our humanity  
The more we can't feel  
The more we lose our humanity

The more we can't feel  
The more we lose our humanity  
The more we can't feel  
The more we lose our humanity
