

# NIGGA DON'T UPLIFT ME

Soul Glo

Why you ain't check for me when I been showin niggas that we got the recipe  
Naw get the fuck off me! You luv a nigga once he talk about his pedigree  
Lemme say it's plain as day to me, the admiration lacks sensitivity  
It's the 21st century  
And niggas still can't just be, apparently

Men lie, women lie, as do numbers out  
The mouths of them both and on that I could die  
Loaded dice throwing whites  
Wanna make me think that they're on my side; it's not like I can't see why  
It's been  
More than 10 years of writing just like this  
Nobody paid me any mind, nobody gave a shit

Niggas start saying nigga, suddenly we important  
Now a nigga feels  
Fucking intolerant  
You want to see me cry, you fucking assholes, and decipher my  
Vocal fry while I contemplate suicide?  
You can pay my life while I bring everything I  
Said under my breath up into the light  
I would make a living out of cussing out  
Everyone who ain't listen  
It just might be the middle child in me but it's worse to  
Get ignored than told straight up you won't be shit

Hell yeah I'm hatin, niggas don't  
Know shit about patience  
I spent 14 years training  
I spent 14 years waiting  
Dan Yemin is my OG, I can't believe he fuck with me  
Next to that I guess it means that  
Jeremy B is big homie. Did I need to get put on to understand my worth? I was  
Ready to quit before this shit and now hella people got our shirts

People ignore us  
At home then talk us up while they touring  
Y'all love us when it works for you and  
That shit is fucking boring

Why you ain't check for me  
When I been showin niggas that we got the recipe? Naw get the fuck off me!  
You luv a nigga once he talk abt his pedigree  
Lemme say it's plain as day to me  
The admiration lacks sensitivity  
It's the 21st century and niggas still can't just be  
Afforded a real representation of the full breadth of their humanity in art,  
in film, in  
Music

It's so steadfastly true I'll literally tell you and nothing will happen  
Nothing  
Will change

Global cultural control will stay ours in a dangerous dance of achilles  
Heels and superpowers

Why was so much blood lost, and who gonna pay off that

Cost? Yea dun niggas can be soft, and you can also fuck the fuck off
