For No Other

Souldrainer

The world is fading
Shadows getting longer
Eyes are watching
You can see something's crawling

Now it opens
Feet on the soil
Jaws of evil
Cry to the moon and moan

Rise against or live in pieces One or the other No in between Cannot live for no other In between...

Rise against or live in peace One or the other No in between Cannot live for no other Those who from the heavens came

Never surrender
Preserve the pride
The dream is real
Stand tall for your beliefs
Fight for freedom
Fight for humanity

Words of wisdom Something to believe Is it for a good cause Or is it all just lies?

There will be blood Anguish and agony But you will surrender You will stand free

Rise against or live in peace One or the other No in between Cannot live for no other In between...

Rise against or live in pieces
One or the other
No in between
Cannot live for no other
Those who from the heavens came

Never surrender
Keep your hope
The dream is real
Stand tall for your beliefs
Fight for me
Fight respectively.
