

Bite the Bullet

Soulfly

I am part of the war
I have been here before
Grease the tires, spill the blood
Innocents dragged through the mud

Anger, fear, rising contradiction
Suffer, pester, carrying this affliction

Bite, bite the bullet
Bite, bite the bullet
(Bite, bite, bite)
Rrah, bite the bullet
Bite, bite the bullet
Bite

I am the master
Of my enemies
Feed the lion, on the run
Just discovered what he had done

Power, hatred, that's just in your mouth
Demons, shadows, turn you inside out

Bite, bite the bullet
Bite, bite the bullet
(Bite, bite, bite)
Rrah, bite the bullet
Bite, bite the bullet, rrah
(Bite, bite, bite)

Only hate remains, hate
(Hate, hate, hate)
High
(High, high, high)
Oh

Hostile, visions, beyond resistance
Grotesque, horror, I am becoming
Summon, martyrs, gods of the old
War, eternal, war, immortal

Bite, bite the bullet
Bite, bite the bullet
(Bite, bite, bite)
Rrah, bite the bullet
Bite, bite the bullet
