

## Deceiver

Soulfly

From your mouth shit comes out  
I know what you're all about  
Spreading lies and misery  
Why don't you face reality

Deceiver - Spawn the bastard  
Deceiver - Your grotesque existence  
Deceiver - I vomit on you  
Deceiver - I curse your soul

With this dagger, I kill the leper  
Accuser of all, I the rapture  
Come back from the dead to fuck with me again  
Sucking my bloody veins, your shame has no end

Deceiver - Your filthy corruption  
Deceiver - Your mental abortion  
Deceiver - Your terminal cancer  
Deceiver - A slave to your master
