Namaste

Come around, come around  
Predatory jungle law  
Come around, come around  
Predatory jungle law

One  
One soul  
One heart  
One man  
One truth  
One tribe  
One life  
One god

Come around, come around  
Predatory jungle law  
Come around, come around  
Predatory jungle law

Embrace one feeling left inside  
The more we breathe  
The more it takes my breath away  
Everything you do  
Everything in you  
Everything you do and say  
Doesn't wash it all away

Come around, come around  
Predatory jungle law  
Come around, come around  
Predatory jungle law

One  
One fate  
One rise  
One sky  
One breed  
One pain  
One Light  
One fire

Come around, come around  
Predatory jungle law  
Come around, come around  
Predatory jungle law

Embrace one feeling left inside  
The more we breathe  
The more it takes my breath away  
Everything you do  
Everything in you  
Everything you do and say  
Doesn't wash it all away

Come around, come around

Predatory jungle law  
Come around, come around  
Prdatory jungle law
