

Hold Your Head Up

Soulitude

Son, now listen and learn
This is not wonderland
So you'd better beware

Don't never give up
Don't you never give in
When the game is unfair

Rise, when you're going down
If you fall to the ground
Just get up again

Step away from the dark
Use your brain and your heart
To highlight from the blands

Life can be beautiful
Life can be tough
Always remember
The people you love

Hold your head up
Showing no weakness
Hold tour head up
Follow your feelings
Hold tour head up
Rout the deceivers
Hold tour head up
Follow no leaders
