

## Power and Glory

Soulitude

We are pawns in a master plan  
A game of hunger and greed  
The rich man rules from his golden throne  
You obey the spell on TV

And the faithful will be fed  
So you're acting like a pet  
Nobody seems to care  
The puppet master pull a string  
And you get down on your knees  
They've gone too far

Power and glory

Media teaches what you're gonna think  
You're hurt and they let you Bleed  
War is business for their growing empires  
Your life is all they need

Avarice is in their eyes  
They don't care for humans rights  
Power is all they need  
They are playing with our lives  
Some will live and some will die  
They've gone too far

Power and glory
