The Last Warning

Soulitude

I'm the master of all
The law of the strong
Obey my command
Far away from your World
Our planet is dying
And we need your land

Heed my words now
See us coming

Leave the world or be dead
Get out of the Earth
And you will be safe
Some humans will live
In sorrow and grief
To be our slaves

Time will come – this is my last warning
I will come – Earth is what I'm yearning
Time will come – this is my last warning
I will come – leading my great army

Heed my words now
See us coming

Take a look to the sky
The arrival is near
Don't beg for more time
Escape before you all die
Obey me or fear
The wrath of our kind
Heed my words now
See us coming

Time will come – this is my last warning
I will come – Earth is what I'm yearning
Time will come – this is my last warning
I will come – leading my great army
