

## Simple Rule

Soulsister

Baby, the fire's gone out  
It's getting cold  
And there ain't no doubt  
Movin' on seems like  
The best solution  
To keep us both  
On the track of truth

A simple rule  
Any fool will tell you  
A simple rule  
Written in your heart  
Simple rules  
Never lose their value  
Simple rules  
We shouldn't disregard

Baby, the music's stopped  
The band is leaving  
They're closing up  
Movin' on seems like  
The best solution  
'Cause deep inside  
There's silence too

A simple rule  
Any fool will tell you  
A simple rule  
Written in your heart  
Simple rules  
Never lose their value  
Simple rules  
We shouldn't disregard

In a perfect world  
We could be as one  
Without a past  
To divide us  
With a new belief  
To hold on to  
And no more rules  
To guide us

Baby, the fire's gone out  
It's gettin cold  
And there just ain't no doubt  
We're losing all  
Of what we had together  
But deep inside  
I'm still a part of you

A simple rule  
Any fool will tell you  
A simple rule  
Written in your heart  
Simple rules  
Never lose their value

Simple rules  
We shouldn't disregard
