

# Illusion

Soulstice

Shut off to the world outside  
In order to look in  
Caught up in a battle  
This is where I've been

Accepting negativity  
Not listening to truth  
I must return to lighter ways  
That I knew as a youth

I used to move to  
Create change  
Realized and rearranged  
Believing in myself I'd see

My dreams into reality  
All my life  
I felt confusion  
Black and white

The colors of my  
Illusion  
Turned on to the world outside  
To free myself within

Overcome this battle  
Heeding love again  
Since I want to feel then  
I know I have to live

Got to move to create change  
Realize and rearrange  
Believing in myself I'll see  
My dreams into reality

From the light  
The color fusion  
It's what works right  
Do you feel my

Allusion  
Illusion  
Got to move to create change  
Realize and rearrange

Believing in myself  
I'll see my dreams into reality  
All my life  
I felt confusion

Black and white  
The colors of my
